SOFRAPER Optimoil 203M

Multi purpose vacuum for machine cleaning, oil and coolant filtration

- ☪ Fully versatile, high performance vacuum system provides a powerful cleaning solution for all types of machines.
- ☪ Its two stage filtration process can obtain as low as 5 micron partial separation to all types of coolants and oils improving cutting tool life and coolant/oil longevity.

Features

- Two stage filtration operation down to 5 microns
- Simultaneous pump and discharge operation
- Easy clean total drain system for quick cleaning of the vacuum tank
- Mounted onto an oil retention tank which includes storage for all accessories, preventing unwanted spillages
- Adjustable flow rate settings to suit liquids and solids
- Suction capability of 250 litres per minute on liquid

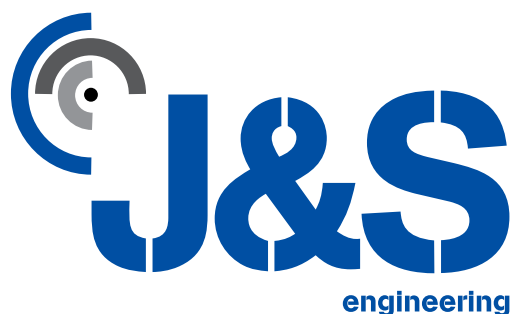

Standard equipment

- Output filter unit with 5 micron cartridge
- Steel pre filter basket 400 micron with 15 litre capacity for large swarf particals
- 2.5m re-enforced polyurethane hose
- 0.9m semi-rigid pe attachment
- 0.9m straight pe attachment
- 120mm flat suction nozzle
- Steel accessories storage basket
- 12 month warranty

Options

- 60-100-200 litre capacity
