

SOFRAPER

SUMP 7

Supplied by J&S Engineering

SOFRAPER SUMP 7

Multi purpose vacuum for machine cleaning

- ☞ Fully versatile, high performance vacuum system provides a powerful cleaning solution for all types of machines.
- ☞ Its air powered suction system can vacuum and discharge all liquids.
- ☞ The head can also be transferred from drum to drum without any need for cleaning when using different types of liquids.

Features

- Re-enforced drum with retaining trolley
- Pump and discharge operation
- Mounted onto an oil retention tank which includes storage for all accessories, preventing unwanted spillages
- Adjustable flow rate settings
- Suction capability of 250 litres per minute

Standard Equipment

- 2.5m re-enforced polyurethane hose
- 0.9m semi-rigid pe attachment
- 0.9m straight pe attachment
- 120mm flat suction nozzle
- 12 month warranty

Options

- 100/200/400/600 litre capacity
- Special colour drum available for different liquids
